

SMART HYBRID HUB POWERED BY FPT

THE FIRST VARIABLE SPEED LOW PRESSURE NATURAL GAS HYBRID GENSET

Designed for the energy independent farm of the future
(net-zero CO₂ emissions).

Multimode function and energy modularity based
on customers' needs.

Specifications:

FPT Natural Gas Engine:	F28
Engine Displacement (L):	2.8
Cylinder Arrangement:	4 in line
Genset Hybrid Logic:	3 modes (Boosting, Touring, Eco)
Peak Stand-by Power (kVA/kWe):	86/78
Modular Battery Pack (kWh/each):	37
